$$\text{Cash Settlement Amount} = \text{Number of Call Warrants} \times \frac{(\text{Closing Price} - \text{Exercise Price})}{\text{Exercise Ratio}}$$

In the event that the Cash Settlement Amount after deduction of the exercise expenses is equal to or less than zero on the Expiry Date, the Call Warrants shall terminate on the Expiry Date and cease to be valid and the Issuer's obligations in respect of the Call Warrants shall terminate absolutely. The Holder shall not be required to pay or top-up the exercise expenses in the event that the Cash Settlement Amount after deduction of the exercise expenses, is less than zero.

Exercise expenses are currently borne by the Issuer and no charge shall be incurred by the Holder.

1. TERMS AND CONDITIONS *(Cont'd)*

Best and worst case scenarios of the Holders' investment in the Call Warrants

Best case scenario:

The price of the Underlying Equity increases substantially, resulting in a significant increase in the price of the Call Warrants. If the Holders sell the Call Warrants prior to the Expiry Date, the more the selling price exceeds the purchase price of the Call Warrants, the higher the Holders' return will be after considering any transaction cost. On the other hand, if the Holders hold the Call Warrants until the Expiry Date, the higher the Closing Price of the Underlying Equity is relative to the Exercise Price of the Call Warrants, the higher the Holders' return will be after considering any transaction cost.

Worst case scenario:

The price of the Underlying Equity decreases substantially, resulting in a significant decrease in the price of the Call Warrants. If the Holders hold the Call Warrants until the Expiry Date and the Closing Price of the Underlying Equity is equal to or below the Exercise Price, or if the Issuer is insolvent and does not have sufficient funds to pay the Cash Settlement Amount, the Holders will lose the entire value of their investment, in addition to any transaction cost.

2. RISK FACTORS

BEFORE INVESTING IN THE CALL WARRANTS, YOU SHOULD CAREFULLY CONSIDER THE FOLLOWING RISK FACTORS IN ADDITION TO THE OTHER INFORMATION CONTAINED ELSEWHERE IN THIS TERM SHEET AND THE RISK FACTORS AND OTHER INFORMATION CONTAINED IN THE BASE PROSPECTUS AND THE SUPPLEMENTARY BASE PROSPECTUSES.

Your investment decision should be based solely upon your own independent assessment of our financial conditions and affairs, and your own appraisal of our prospects, Affin Hwang IB's creditworthiness, the Terms, MI Shares and any other factors relevant to your decision, including the merits and risks involved.

2.1 We have not performed any investigation and review of MI

We have not performed any investigation or review of the business operations and prospects of MI. Therefore, our issuance of Call Warrants over MI does not represent a recommendation by us to invest in MI Shares.

In addition, you should be aware that MI has not participated in the preparation of the Base Prospectus, the Supplementary Base Prospectuses and this Term Sheet, or in establishing the Terms. As a consequence, there can be no assurance that all events occurring before the date of this Term Sheet that would affect the trading price of MI Shares (and therefore the price of the Call Warrants) have been publicly disclosed. Subsequent disclosure of any such events or the disclosure of or failure to disclose material future events concerning MI could affect the trading price of MI Shares and therefore the trading price of the Call Warrants. Further, MI has no obligation with respect to the settlement amount to be paid to you (if any) upon exercise of the Call Warrants, including any obligation to take into account, for any reason, our needs or your needs.

2.2 Adjustment related risks

The occurrence of certain events (including a rights issue or bonus issue by MI, a subdivision or consolidation of MI Shares or a restructuring event of MI) may entitle us to adjust the Terms of the Call Warrants. However, we are not obliged to adjust the Terms of the Call Warrants for every event that affects MI Shares. Any adjustment or decision not to make any adjustment may adversely affect the value of the Call Warrants.

2.3 Inherent risks relating to MI

MI is principally an investment holding company. The group is principally involved in the design, manufacturing and sale of semiconductor manufacturing equipment paired with smart factory automation solutions, together with maintenance services, technical support, and spare parts and components for this equipment. The group is also engaged in the manufacturing and sale of solder spheres or solder balls, which is a key assembly and packaging material used in the semiconductor industry.

MI is subject to risks inherent in the abovementioned sectors. You should therefore note that the occurrence of any material or adverse events in this industry may affect the performance of MI Shares on Bursa Securities and may consequentially affect the value of the Call Warrants.

2. RISK FACTORS (Cont'd)

2.4 The Base Prospectus, the Supplementary Base Prospectuses and this Term Sheet are not the sole basis for making an investment decision

The Base Prospectus, the Supplementary Base Prospectuses and this Term Sheet do not take into account your investment objectives, financial situation or particular needs. Nothing in the Base Prospectus, the Supplementary Base Prospectuses or this Term Sheet should be construed as a recommendation by us or our affiliates to invest in the Call Warrants or MI Shares.

2.5 Impact of possible future outbreaks of disease

Any possible future outbreaks of viruses may have significant adverse effect on the performance of MI Shares and consequently materially and adversely affect the performance of the Call Warrants.

Any possible future outbreaks may also have a negative effect on the financial markets in which the Group operates in, which could in turn affect the Group's profits and financial position, hence our ability to perform our obligations in respect of the Call Warrants. Accordingly, you should evaluate the Call Warrants on your own or consult your investment adviser.

2.6 Tax implications

The buy and sell transactions of Structured Warrants on Bursa Securities are subjected to stamp duty. In addition, income tax or capital gain tax treatment may vary depending on the legal identity of an investor, or the classification of income from the investment of Structured Warrants by the relevant tax authorities.

From time to time, tax laws and regulations as well as their application by the relevant taxation authorities are subjected to changes. If you are in doubt, please consult your own independent tax advisers on your tax position considering your individual circumstances before investing in the Structured Warrants.

3. SUPPLEMENTARY GENERAL INFORMATION

3.1 Information on MI

Information on MI may be obtained from the following:

- (a) MI's website,

- (b) Bursa Securities' website,
www.bursamalaysia.com

Please note, however, the information contained in the above websites does not form part of this Term Sheet, the Base Prospectus and the Supplementary Base Prospectuses.

3.2 Basis of Arriving at the Issue Price

The Issue Price of the Call Warrants of RM0.150 was based on an option pricing model which takes into account the Exercise Price and tenure of the Call Warrants, the volatility and expected dividend yield of MI Shares and interest rates.

3.3 Utilisation of proceeds

For illustration purposes, based on the Issue Price of RM0.150, the Offering may raise total proceeds of up to RM15,000,000.00 which will be utilised in the following manner:

	RM
Working capital ⁽¹⁾	14,950,000.00
Estimated expenses ⁽²⁾	50,000.00
Total	15,000,000.00

Notes:

- (1) This amount will be used in the ordinary course of business as and when required.
- (2) The estimated expenses include but are not limited to professional fees, fees to authorities, selling fees, printing costs and miscellaneous costs.

3.4 Determination of break-even level

Holders may calculate the break-even level for their investment in the Call Warrants by using the following formula:

$$\text{Break-even Level} = \frac{\text{Exercise Price}}{\text{Exercise Price}} + \left[(\text{Purchase Price}^{(1)} \times \text{Exercise Ratio}) + \frac{\text{Exercise expenses}^{(2)}}{\text{Exercise Price}} \right]$$

A positive payoff is only attainable if the price of MI Shares is above the break-even level upon the exercise of the Call Warrants.

3. SUPPLEMENTARY GENERAL INFORMATION (Cont'd)

Notes:

- (1) *Purchase Price is the amount paid by the investor for the purchase of one (1) unit of Call Warrant, either in the primary or secondary market, and includes all relevant transaction costs such as stamp duty, clearing fees and brokerage charges, whichever is applicable.*

3.6 Further issue

The Deed Poll allows us to create and issue further Call Warrants in respect of the same series of Call Warrants ("**Further Issue**") without the consent or sanction of the existing Holders of the Call Warrants under the Base Prospectus. The Further Issue will form part of the existing Call Warrants in issue ("**Existing Issue**").

For the purpose of facilitating Market Making, we may apply for a Further Issue in respect of the Call Warrants issued pursuant to the Base Prospectus subject to the following conditions:

- (a) the Further Issue is for the purpose of facilitating Market Making;
- (b) the Terms and Conditions of the Existing Issue either permit the Further Issue or have been properly amended to give the Issuer the right to issue and list one or more Further Issues;
